LADIES IN POOR HEALTH.

ONE of the best medicines, probably the very best ever prescribed, for the immercuts and distressing aliments known as FEMALI COMPLAINTS, is Dodd's Nervine and Invigorator, Headache, Pain in the Back and Limbs, Palpitation of the Heart, Faintness, Loss of Appetite, Bearing-down Pain, Prostration of Strengta, Retained, Excessive, Irregular or Painful Mensus -all yield to its magic power. For Hysteria, Epilepsy, Me ancholy, Ac., it is albut infallible. It is also most valuable to ladies who are experiencing the chappe incident to adwho are experiencing the charge incident to advanced years. Then it is that constitutiona maladies make their appearance, if any be lurking about the system, and give easte to remaining days. Dodd's Nervine and Invigorator greatly assists nature at this important. ly assists nature at this important period, main-taining the vigor and tranquility of early life, and carrying them with ease and safety through.

Important Certificate.

[Communicated by a Physician]

[Communicated by a Physician]

Seme months ago I was called to attend a lady of Williamsburgh, N. Y, who had long been suffering from troublesome uterine disease. Its presence was marked by constant vaginal discharge, sometimes of a watery consistency and sometimes creamy and muco-purulent. She had been under other treatment for some time, but constantly grew worse. Vaginal examination disclosed extensive induration and ulceration of the cervix uteri. The uterine inflamation, which was evidently assuming a chronic form, was also aggrevated by long-standing constipation, palpitation of the heart, night-sweats' cough, poor appetite, and almost daily faintings. She fainted to entire insensibility during one of my first visits. I commenced, of course, by such active local treatment as the ulceration demanded, local treatment as the ulceration demanded, and then applied myself to a recuperation of the general health. It was inconvenient to see her frequently, and except to mark the healing of the ulcers, in the early stages, I v sited her on-ly every other week. For tonic and constitution-al invigorant Dodd's Nervine only was perscribly every other week. For tonic and constitutional invigorant Dodd's Nervine only was perseribed. I had some time before become acquainted with its properties, and snew of nothing more safe or satisfactory in its probable effects. And the result completely justified my expectation. In a fortnight the bowels had become free and regular in their movements, the night-sweats disappeared, and appetite began to grow. The fainting spelis became less frequent, and soon ceased altogether. In another fortnight there was no more cough, the vaginal discharge was sensibly diminishing, sleep was normal and refreshing, ond the general health decidedly improved. What remains is soon told. The patient continued the use of the Nervine [and no other medicine] for some weeks longer, when my further attendance was not required. Since her recovery I have seen her but once. She seems perfectly well, Her joy over restored health is naturally enough most enthusiastic. She never before had a medicine give her such comfort—and such appetite—and such sleep—and such courage—and such strength. She wouldn't try to keep house again without it, and so forth, and so forth. It is my own opinion that the Nervine is the best tonic and corrective of the female organization that has ever come under my observation. I shall not fail to continue its use in all similar cases, and the profession know they are numerous enough. sion know they are numerous enough. For sale by all Druggists. Price, \$1. 243-8

GREAT IMPROVEMENT IN DENTIS

The attention of the public is called to a great liscovery in Dentistry.

liscovery in Dentistry.

THE GREATEST ADVANCE STEP EVER MADE IN THE ART.

The main difficulty in wearing artificial teeth is, bey do not hold in their place firmly enough, and add to this the annoyance of food getting order the plate while eating. I have discovered a method of so constructing the plate or which the teeth are set that they will not start of drop while eating or speaking, neither will any particles of food get under the plate, in caster what the condition of the mouth is, which is not true of any method hithertoused.

I have secured Letters Patent for the United states, England and France,
